EXPERIENCE

02.2021 - 03.2021

Kasarani Maternity Hospital

External Network Maintainer

Here my expertise and services were contracted to redo the cabling and trunking of the hospital network which integrated Computers, CCTVs, other IoT devices, and also a server running the Hospital Management System to ensure smooth running of the facility.

07.2020 - 08.2020

The Judiciary, Eldama Ravine Magistrate Courts

Data Entry Clerk

In the corridors of justice, my responsibility was to upload hard copy paper case files into the Judiciary's online portal, an exercise that sought to streamline the throughput of the Kenyan Courts and ensure quick handling of numerous pending cases, lest we forget, justice delayed is justice denied. I also came to become the right hand man of Magistrates and other staff who were having a hard time while doing some tasks and operations over the computer.

08.2017 - 08.2017

IEBC

IEBC Clerck

Working for DEMOCRACY!!! I was a clerk in charge of the electronic voter identification and verification using the IEBC's KIEMS Kit during the controversial August 8th 2017 General Elections. Elections being a high mass voter exercise, I was able to identify and verify all voters and helped manage the whole voting process at the polling station.

01.2017 - 09.2017

**The Club Side Point Bar and Restaurant, Eldama Ravine
Bar Tender**

Charged with the responsibility of serving drinks and attending to customers needs, stock keeping and book keeping for financial transactions. Working in the Food, Drinks, Beverage and Entertainment Industry I learnt how to work and deal with customers of all kinds, nature and personality and also how to command respect and authority from them and my fellow staff.

HOBBY

I am a security and war enthusiast. I take time in following, understanding and marveling on man methods and tactics in the art and or industry of war, including his weapons, technology and general troops organisation.

Being a tech geek Devices, computers , Software and many other technological inventions serve to fascinate me. I follow on both emerging trends and old skull tech and the science behind it.

I am a dog person. I also breed them for commercial purposes. I am also a conservatitive of nature, Flora and Fauna. I oppose the human idea of land and its natural resources being exclusively for human benefit and exploitation.

Automobils, engines and vehicles are my thing.

Like learning Ancient and Traditional art and culture especially that of the African people

Football fan, Chess Player and a quality Billiard's Table Player

PERSONALITY

- **Multiple MBTI Personality tests and peoples observations map me as an INTP. The flexible thinkers and Logicians (INTPs) enjoy taking an unconventional approach to many aspects of life. They often seek out unlikely paths, mixing willingness to experiment with personal creativity. Logicians pride themselves on their unique perspectives and vigorous intellect. They can't help but puzzle over the mysteries of the universe – which may explain why some of the most influential philosophers and scientists of all time have been Logicians. This personality type is fairly rare, but with their creativity and inventiveness, Logicians aren't afraid to stand out from the crowd. In addition, they are often happy to play devil's advocate in order to keep an interesting discussion humming along. Below are an INTP's core cognitive functions:**
- **Dominant Introverted Thinking**
This function focuses on how people take in information about the world. INTPs express this by trying to understand how things work. They often like to break down larger things or ideas to look at the individual components to see how things fit and function together. INTPs tend to be highly logical and efficient thinkers. They like to have a complete understanding of something before they are willing to share an opinion or take action.
- **Auxiliary: Extraverted Intuition**
INTPs express this cognitive function by exploring what-ifs and possibilities. They utilize insight, imagination, and past experiences to form ideas. They often go over what they know, seeking patterns until they can achieve a flash of inspiration or insight into the problem. They tend to spend a great deal of time thinking about the future and imagining all the possibilities.
- **Tertiary: Introverted Sensing**
INTPs tend to be very detail-oriented, carefully categorizing all of the many facts and experiences that they take in. As they collect new information, they compare and contrast it with what they already know in order to make predictions about what they believe will happen next.
- **Inferior: Extraverted Feeling**
INTPs tend to seek harmony in groups. While they are introverted, INTPs can be quite outgoing when they are around people with whom they are familiar and comfortable. In situations where they feel stress, however, INTPs shut down their feelings and struggle to connect with others. Under stress, they tend to rely on logic rather than feelings.
